

NOTICE OF PUBLIC MEETING

MARTIN LUTHER KING, JR. DRIVE CORRIDOR TRANSPORTATION STUDY

JANUARY 2005

Study Background

The MLK Corridor Study is focusing on the following issues:

1. Scenarios to improve the transportation issues that confront the corridor;
2. Land use and zoning;
3. Economic development;
4. Preservation and enhancement of residential and commercial areas;
5. New transportation initiatives by agencies such as MARTA and the possible extension of the rapid rail to the west; and
6. Recommendations on a full range of transportation options along the corridor for pedestrians, transit, automobiles, and bikeways.

The study began in August 2004 and is expected to last 15 months.

Meeting Purpose

At the October public meeting over 100 citizens identified the strengths and most pressing needs along the corridor. Since that time, the study team has gathered and analyzed information on existing and future conditions. Now, it is time to move forward.

The January public meeting will initiate the process to develop four (4) improvement scenarios, or packages of solutions, listed below:

- Current Trends Scenario,
- Community-Based Scenario,
- Multi-Modal/Transit Oriented Development (TOD) Scenario,
- Enhancements and Aesthetics Scenario.

Please mark your calendar and plan to attend a public meeting to discuss your needs and concerns about the Martin Luther King, Jr. Drive Corridor Transportation Study. The meeting will begin promptly at 6:30 p.m. Light refreshments will be served.

Tuesday, January 18, 2005, 6:30 p.m.
Adamsville Recreation Center
3201 Martin Luther King, Jr. Drive
Atlanta, GA 30311
(404) 505-3181
